

SURGE CURRENTS

S.N.C.A.

Volume 167

December 2020

Welcome Soryn Malcom McNab

The little fellow is almost a month old!!

He is doing well and already brimmed with a Roger hat!

He is named after the owl that Bryn remembers from a children's book.

Lawren is doing really well as a dad and learning to share, Bryn?

I mean toys... Soryn also is after a warrior who slays dragons and means "sun" in Romanian.

As Bryn notes, sun kills vampires anyway.

Joanne and Daryl may find Victoria too far away and thanks to Merlin, too, their Windfall home is re-plumbed as Christmas comes and overflows with Joy.

Tina

Christmas is Coming!

Dear Children and Parents,

The elves are getting ready to reply to all the letters we will be receiving in the next few weeks and would like to hear from all of you! Please send your letters to:

*Santa Claus
North Pole
HOH OHO
Canada
(no stamp necessary)*

*Hohoho, Merry Christmas!
Santa*

Dear Community Members,

I'm sure it's obvious to everyone that there won't be a Christmas concert/play this year. Although, of course, we will all really miss the community coming together for this event, the kids have been working on an online Christmas video with Kate from Theatre Kids. We (the kids and parents) are hoping the community would like to add something to this video. It could be anything from a short video wishing everyone Merry Christmas to a poem, small skit, or a song or anything else you can think off. If you would like to add a video, please send it to renatewoltheus@hotmail.com by December 10. Thank you and Merry Christmas!

Happy Days Will Come Again

To Ginny Vassal A Special Thank You

I don't know that anyone knew the scope of work Ginny has been doing on behalf of our community and in her capacity as Treasurer and Secretary for the SNCA Board of Directors until she retired at the last AGM in October of 2020. The immediate consequences of her departure were not fully understood until a month or so had passed and the duties she has carried for years were detailed in order that they could be divided between ongoing members of the board.

Her dynamic presence and the reach of her responsibilities had to some extent been taken for granted until it became necessary to create a spreadsheet in order that nothing fall through the cracks going forward.

I had to print it out for Steve. It was pages long.

Ginny never complained about her workload and as a previous member of the Board I can attest to the fact that most of us had little idea of the full reach of her work and accomplishments.

There is a joke shared among some of us about running away when you see Ginny barreling down the dock with a keen and predatory look in her eye, as she is well known for her unabashed appetite for grabbing people by the collar (figuratively) and setting them to some task they might have hoped to avoid but knew in their hearts needed to be done.

However, none of us understood entirely the hours of work that Ginny has put in and the myriad details she has covered in her capacity as a board member and community advocate, until she finally decided to hang up her spurs.

As an accountant familiar and comfortable in the corporate world she brought many skills to the table that have proved in-

valuable through her ten years of service on the SNCA Board of Directors. To name one small instance, she was well versed in the Roberts Rules of Order which brought form and order to our annual AGM's.

I will never forget my first AGM experience as a member of the Board when I sat uncomfortably at the table with the other directors (I believe Sheila could not be present that day) and was laughably reduced to asking Ginny at every turn what I was supposed to say next. I had no idea what I was supposed to do and am uncomfortable speaking in public. Luckily, it was somewhat amusing to all present and thanks to Ginny we got through all the formalities required of an AGM given our official status as a charitable society.

Her professional and accounting skills were put to use on a daily basis for matters large and small. As treasurer she looked after the SNCA accounts and produced the required yearly financial statements saving SNCA a lot of money over the ten years of her tenure.

Her attention to detail was legendary and the thoughtfulness she applied to everything she set her mind to ensured that all her communications with "powers that be" beyond our shores were professional and beneficial to community interests. Her word was always good as gold and when she took something on you could count on the fact that it would be done right.

She handled all the financial aspects of the Lot 302 purchase which proved way more extensive and time consuming than anyone imagined.

She was steadfast in her efforts to maintain and improve the Hoskyn Channel dock, walkways, and the problematic damage prone hill to the lower parking lot. She dug tourist trash out of the creek and persevered through a miscommunication laden effort to get the accumulation of silt beneath the shore side of the dock dug out. She planned and coordinated work parties and ensured that there were always the tools necessary to transport supplies along the pathway.

Ginny was instrumental in a number of successful grant writing projects bringing her expertise in this department to various important causes. She spearheaded and fund-raised for the creation of the SNCA Scholarship Fund which supports Surge Narrows school students as they go on to post-secondary education. She organized and coordinated the Timberline School visits.

Emergency Preparedness issues have long been close to Ginny's heart and though they are not part of the SNCA mandate Ginny managed the organization and promotion of many programs over the years that have benefitted the community in countless ways.

Working with Shaun Koopman, the Protective Services Coordinator at SRD, she brought events to the community almost every year including all First Aid initiatives and the extensive Wilderness First Aid course in the fall of 2020; numerous fire preparedness presentations and the development of a fire prevention plan where at her insistence the inclusion of the Sonora and Maurelle communities was guaranteed; Coast Guard presentations and tours of Coast Guard vessels; and annual flu shot clinics. For many of these events she did all the planning, coordination, transportation and the occasional housing of instructors, marshalling of all necessary equipment for courses and, of course, all the accounting that went along with these programs.

A full accounting (pun intended) of the work Ginny Vassal has done over the years on behalf of the community will go down in history as a part of the largely untold story of the work of the SNCA Board of Directors.

The new Board of Directors and the entire community thanks you for your years of service.

Kathy Barnes

Anaphylaxis & "Epi-pens"

Many of you know of Epi-pens as the high-priority, high-speed response for anaphylactic or very severe allergic reactions. However, auto-injector Epi-pens are expensive at about \$100 /each, and the serum expires after 1 year.

Recently, a group of interested Wilderness First Aid participants (Renate Harvey, Johanna, Sheila, Zephyr, Lannie, & Ginny) were trained by NP Pat on administering epinephrine without an Epi-Pen.

Those who may suffer anaphylaxis should always carry an Epi-pen. However, it's good to know that in an emergency you can call on Renate/Sonora; Johanna/Maurelle; Zephyr/E. side of Read Island; Ginny/W. side of Read Island, all of whom have current kits and can help in an emergency. There is a kit at the Surge freight shed and Lannie advises Coast Mountain and likely other kayaking outfitters carry current Epi-pens.

And what is anaphylaxis? It is a severe reaction that happens quickly, often within seconds to minutes of exposure to food, medicine, or venom/sting to which the person is allergic. Symptoms are varied and severe, and can include hives, swelling of the eyes, tongue, face, hands or feet, difficulty breathing, nausea or diarrhea, and becoming very sick very quickly. This is a serious situation and even with epinephrine given, the person should be transported to the hospital ASAP.

Ginny for Emergency Preparedness

Current Events and Notices

Medical Clinic December

NP Pat will be at the clinic on 16th December and Dr. Hughes on 13th January.

Only one clinic in December

LOST A BOAT???

If you are missing an open, aluminum skiff, with no motor, please contact Judith: judithwright@hotmail.com or on Facebook Messenger.

SNCA membership is \$10.00 annually, and covers from AGM to AGM: Surge Narrows Community Association, P.O. Box 52, Surge Narrows VOP 1W0 or by email transfer to surgenarrows@gmail.com.

LOOKING FOR WORK?

Firewood Cutting. We still have work available for anyone able to help with cutting, stacking and splitting firewood for residents. Please contact Sally at sallyotg@gmail.com for details.

I am looking for used metal roofing. Rust is fine / bent out of shape is not!

Kathy@778-770-2460 or email: ksb.svb@gmail.com

Sounds of the Forest

Hazel Trego sent me the link to this site: <https://timberfestival.org.uk/soundsoftheforest/> "Help us create the first ever forest soundmap of the world! We are collecting the sounds of woodlands and forests from all around the world and creating a beautiful soundmap bringing together aural tones and textures from the world's woodlands." From their website.

The map at right is a miniature of the map on Timber Festival/ Sounds of the Forest website. All you have to do to listen to forests from around the world is click on one of the gold coins. It is pretty cool!

The school kids might love to put us on this map.

Christmas Poems...Anonymous

*T'was a month before Christmas
And all through the town,
People wore masks,
That covered their frown.*

*The frown had begun
Way back in the Spring,
When a global pandemic
Changed everything.*

*They called it corona,
But unlike the beer,
It didn't bring good times,
It didn't bring cheer.*

*Contagious and deadly,
This virus spread fast,
Like a wildfire that starts
When fueled by gas.*

*Airplanes were grounded,
Travel was banned.
Borders were closed
Across air, sea and land.*

*As the world entered lockdown
To flatten the curve,
The economy halted,
And folks lost their nerve.*

*From March to July
We rode the first wave,
People stayed home,
They tried to behave.*

*When summer emerged
The lockdown was lifted.
But away from caution,
Many folks drifted.*

*Now it's November
And cases are spiking,
Wave two has arrived,
Much to our disliking.*

*Frontline workers,
Doctors and nurses,
Try to save people,
From riding in hearses.*

*This virus is awful,
This COVID-19.
There isn't a cure.
There is no vaccine.*

*It's true that this year
Has had sadness a plenty,
We'll never forget
The year 2020.*

*And just 'round the corner
-
The holiday season,
But why be merry?
Is there even one reason?*

*To decorate the house
And put up the tree,
When no one will see it,
No-one but me.*

*But outside my window
The snow gently falls,
And I think to myself,
Let's deck the halls!*

*So, I gather the ribbon,
The garland and bows,
As I play those old carols,
My happiness grows.*

*Christmas ain't cancelled
And neither is hope.
If we lean on each other,
I know we can cope.*

*Time to scurry an' shop in a hurry?
Or
Just quit this crazy scene, aye Joni.
Let it Rhyme for any reason
Full of Jollies, It's the season
Deck the Halls with Boughs of Holly
Okay skip the hall,
give Clarke a break
No curtains for Roger,
no sets to make...
But all the couldas, wouldas and
wishers we did
are still around and in your midst
To our Wonderful School and it's
pack of Elves
The Young and the Wondrous
Singing out Strong
We'll beat down the doors and clog
up the halls
I'm kidding!!!! It's ME, with a
mask!!!
Me and my mates, 'r up for the task.
All about magic? Parcels with bows?
Be the One with the Light
The light on Your Nose!!!!*

Ho HO Ho....

A Bit of Humour for These Tough Days

If 2020 was an Ice Cream truck

If 2020 was a slide...

If 2020 was a car

IF 2020 WAS A SWING

SNCA BOARD UPDATE

Hi everyone, sure is hard to believe it's already December and Christmas is right around the corner! Here's a quick update from the SNCA Board.

Regular Board Business: We are currently reviewing our financial situation and dividing up the various roles and responsibilities of SNCA business between the Directors. We are exploring the option of hiring an accountant and bookkeeper.

Hoskyn Channel Committee: We have decided to create a Committee to oversee this dock, considering it is so critical to our community. Please contact Steve Barnes if you'd like to be on this Committee.

Update on Grants recently applied for:

Gym Heating Project: Unfortunately, our application to the United Way to pay for this project was unsuccessful. Thanks to Jim and Rosie for writing the application and to Clarke for helping figure out the logistics and pricing it out. We are currently reviewing our financial situation to see if we could still go ahead with this project using our own funds.

Directors' Handbook: We were successful in our grant application with the Campbell River Foundation. The funds from this grant (\$500) will help us update the Directors' binders to create a SNCA Directors' Handbook. The Handbook will include all the information on how to run SNCA, including some historical information on community buildings as well as some practical information like how to drain the Bunkhouse water. We are excited about this project and feel it will make the organization run more smoothly and facilitate an easier transition for new Board members. Please let Sheila know if you're interested in getting involved in this project in a voluntary or paid position (more on this below).

Xmas Grocery Delivery: Surge Community received a Neighborhood Small Grant of \$500 to go towards the cost for delivering groceries to Surge Narrows for the month of December. Based on current numbers, the grant will cover 2 deliveries. Please contact Judith if you want to get involved with the grocery ordering service, or if you want to arrange for other items from other stores to be picked up by the Beeline Taxi and delivered by the water taxi on Fridays.

Employment Opportunities with SNCA: ***Maintenance Position:*** This person will perform maintenance duties on a monthly basis. ***Technical Writing:*** This position will be paid for from the Directors' Handbook grant. In addition to having excellent writing skills, ideally, this person would have also been a SNCA Board member and therefore be familiar with SNCA business and duties. Please contact Sheila if you are interested in either of these positions.

Covid update - Given that we are now in the middle of the second wave of Covid and there has been an infection on Cortes we are asking everyone to be extremely cautious. This means no visiting neighbours without prior approval, and to maintain social/physical distance at all times. Also, a reminder that masks are mandatory in the Post Office.

Island Christmas Celebrations - It probably goes without saying that sadly there will be no White Elephant this year. We are sure everyone, especially the kiddos, will miss this holiday tradition at Surge.

Happy Holidays to you all, and all the best for 2021!

From the SNCA Board
Sheila (fashedo@hotmail.com), Rosie, Jim, Steve, Dood

Results of the survey on the Mary Anne Moss Memorial Salmon Viewing Platform:

Thanks to everybody who took the time to vote in the poll on the Mary Anne Moss Salmon Viewing Platform. We received 52 responses. As many of you rightly pointed out this structure should be more accurately known as a viewing platform since there is neither a trail nor plans for a trail at the far end. The community voted overwhelmingly in favor of keeping the viewing platform: 50 votes in favor vs 2 against. Several people said that they have observed chum from it this season and many felt it to be a fitting tribute to Mary Anne Moss. There were some concerns raised about its future upkeep particularly that it be monitored and maintained to prevent potential impacts to the stream. The importance of encouraging a process for meaningful community consultation prior to any future community development on public land was also emphasized in your comments. Given your approval, the SNCA Board will now explore our next steps for keeping the viewing platform in place.

SNFAC Report on Evening Mountain Clearcuts (EM1, EM2, and EM3)

Without notification, logging on Evening Mountain started in August. The community's forest advisory committee, SNFAC, was upset because we had been assured there would be consultation ahead of logging activity. David Graham's woodlot forester, Len Apedaile, said, "Sorry, we dropped the ball," and promised better next time. SNFAC deliberated community options and decided to give more effort to developing the promised consultative relationship. The result is that the first two cutblocks on Evening Mountain, EM1 and EM2, were planned and felled with no input from SNFAC. The final block on Evening Mountain for 2020, EM3, is being currently being planned in consultation with SNFAC.

EM3

The first block, "EM1" appeared mostly finished when SNFAC visited the site in early September. It was a typical clearcut, but we were pleased to note some vegetation protecting intact soil and did not have serious issues with the cut. Unfortunately, a mistake was made and the Pre-Harvest Prescription (PHP - describes how logging will occur and how environmental impacts will be mitigated) was not correctly followed in the post-logging (clean-up) activities, and some areas of the block including much of the riparian area was heavily impacted by machines. Woody debris (slash and "wood waste") was also not correctly dealt with. David Graham apologized for this oversight due to the fact that he was unable to be onsite for several days and assured us it will not happen again. Remediation work to address the problem will be conducted in the near future and SNFAC will be in discussion with David and Len regarding these measures.

EM2 is a long, narrow clearcut following the mountain ridge and down-slope towards Calm Channel. We were dismayed to see that EM2 is largely old growth, although much of it is stunted due to the exposed rocky site. Logging is still in-progress and will not likely be completed until spring or summer. SNFAC will remain involved in the post-logging activities at this site, and monitor the final result as compared with the PHP.

With EM1 and EM2 not quite finished, SNFAC was presented with the PHP for EM3, which is adjacent to EM1 (see maps.) On Nov 20, a SNFAC crew (9 of us!) went to look at EM3. We followed flagging around the perimeter, noting the small size of the trees in some areas, and a wet area feeding a small stream that runs through the block. The bulk of the block is composed of 40-60-year-old trees. The next day, we submitted our comments which included: 10m buffer around one section of stream; 10m machine free zone for remainder of streambed except for designated crossing; greatest care in following prescriptions to mitigate impacts on streambed at the designated crossing; redrawing boundaries to avoid areas of very small/sparse timber; 10m buffer around a wet area with vernal pool (amphibian habitat and moisture retention). We also requested more time in this and future consultations – a one-week notice is not enough for a volunteer community committee.

The immediate response was that there was not enough time to reconsider the plan and address these issues, and some compromises were suggested. SNFAC held firm in our

position and were impressed when David Graham decided to change his plan and work on something else so that our concerns could be addressed. This bodes well for the community consultation process. We have not yet heard what the outcome will be... stay tuned.

December 2020

Missing the kids and their marvelous artwork and delving into past Arts and Culture days. Sorry I have no credits for this work from 2018. KB

**THE NORTH ISLAND'S LARGEST
MARINE STORE AND BOATYARD**

**Discovery Harbour Shopping Centre and Marina, Campbell River, BC
Tel: 250-286-1011 / Toll Free: 1-800-663-2994 / www.oceanpacificmarine.com**

- 110-Ton Travelift**
- ABYC Certified Marine Technicians**
- ABYC Electricians**
- CWB Welders**
- Qualified Fiberglass**
- Cummins Marine Technicians**
- Painting and Detailing**
- Shipwrights & Fine Wood Workers**
- 2 – 40X80 Sheds, 1-60x80 Shed**
- Emergency Services Available**

PLB1, the World's smallest PLB

Waterproof to 15 m	No subscription	 FREE
Link via satellite to Emergency Services	 406 MHz	High intensity (1 candela) strobe
Fast accurate positioning	 66 Channel GPS	Easily deployed antenna
Homing Beacon to aid final location by Search and Rescue craft	 121.5 MHz	30% smaller
7 year battery life	 7	

Wherever you are, at sea, on land, the **rescueME PLB1** provides the reassurance that global emergency services can be alerted by the press of a button.

rescueME PLB1 works with the only officially recognised worldwide dedicated search and rescue satellite network (operated by Cospas Sarsat). As this is funded by governments there are **NO CHARGES** to use this service. When activated the **rescueME PLB1** transmits your position and your ID to a Rescue Coordination Center via satellite link. Rescue services nearest to your are promptly notified of your emergency and regularly advised of your current location to assist prompt rescue.
